This revised Addendum fulfills the requirements of the Amended Consent Agreement. Additionally, the revised Addendum presents the detailed methodology for performing the risk assessment/risk management tasks in the RI/FS to resolve issues raised by U.S. EPA and Ohio EPA in their disapproval of the earlier draft dated October 15, 1991. The Addendum is accompanied by the Response to Comments report that presents detailed responses and actions for each of the 298 comments received from both the U.S. EPA and Ohio EPA.
